

I would like to stress the importance of the station of K-LOVE in our community. I listen to K-LOVE every day on the radio. It is a refreshing change to the many other "ugly" stations which seem to have no respect for anyone listening. In addition, it is a pleasure to not be bombarded by the commercials, and have uplifting music.

KLOVE serves the community by offering notice to free events like concerts in churches and community. In addition, it provides a clear alternative and a clear path to be able to worship God through your radio station.

By displacing KLOVE with a LPFM broadcaster, our community would not be served in the public interest. KLOVE always offers more music with notices of concerts and free events in the area. As I travel, I always look for the local KLOVE station in the area. I always know what type of music I will get, uplifting, and I don't have to listen to commercials!

Thank you for your time, and I hope and pray my comments are meaningful, and will help KLOVE to continue to stay on the air and not be displaced.
